

## Urban Park

The task here is to plan towards a leaflet on an urban public garden or park and to produce the leaflet. A community group has worked for a year to produce a park and a celebrity has agreed to open it. The leaflet needs to show:

- The park's history, including the community group name, it being created from a derelict site in an urban setting
- A name and description of the park including its amenities
- The maintenance of the park and good care practices
- The celebrity opening

Make notes first about the leaflet's beginning, relevant sections, content, and closure. Include names. The content should be within the organisation of the leaflet and the following table arrangement for notes is a suggestion only:

Starting	
How the park was made	
Park amenities	
Celebrity and opening	
Park maintenance and care	
Ending	

Only the English is important for imaginative content, organisation and grammatical accuracy, but small images may be added.
